NAME:

1. In our attitude to the war, which on the part of Russia remains indisputably an imperialist war. By virtue of the capitalist character of this Government, the smallest concession to "revolutionary defensism" is intolerant.
2. The peculiarity of the present moment in Russia consists in the passage from the first stage of the revolution, which has given power to the bourgeoisie because the proletariat lacks the necessary degree of consciousness and organization, to its second stage, which must put power in the hands of the proletariat and the poor layers of the peasantry.
3. No support for the Provisional Government; explain the complete falsity of all his promises, especially the renunciation of annexations. Unmask this government, which is a government of capitalists.
4. Recognize that, in the majority of the soviets of workers' deputies, our party is in the minority, against the bloc of all petty-bourgeois and opportunist elements. Explain to the masses that the Soviets of Deputies are the only possible form of revolutionary government.
5. Not a parliamentary republic, but a republic of the Soviets of workers 'and peasants' deputies throughout the country, from the bottom up.
6. In the agrarian program, transfer the center of gravity to the Soviets of bracero deputies. Confiscation of all the lands of large estates. Nationalization of all the lands of the country, which will be available to the local Soviets of bracero and peasant deputies.
7. Immediate merger of all the country's banks into a single National Bank, subject to the control of the Soviets of workers' deputies.
8. Not the implantation of socialism as our immediate task, but to pass only to the immediate establishment of the control of social production and the distribution of products by the Soviets of workers' deputies.

Lenin, *April Theses* (April 4, 1917)
