- "I work as a..."
- "I think that..."

[illegible]

Here is an idea of how you could do your presentation:

"My name is Demetrios. I live in Athens, near the Agora, in a house where politics is part of our daily life. I work so that free citizens can decide the destiny of a city. I firmly believe that democracy is the best system we have built. I dream of an Athens where everyone participates, debates, and thinks of the common good. I am proud to defend the laws in the Assembly. Sometimes I fear that pride or ignorance may endanger our freedom. I would like to change the indifference of some citizens. My greatest wish for the future is for Athens to be an example to the world."
